SCAN! Culture and Innovative Tactics Committee.

We may want to expand our committee by a member. We will follow up with the names of one or two people in the arts community. We will also talk to Membership Cttee. to get a list of members with skills and interests which may be a good resource for our activities.

We circulated climate justice committee statement and will discuss at next meeting to ensure that we reflect these principles in our activities. Wally identified a possible typo in the document – replace “Developing” countries with “Developed” countries.

We want to relate to the current campaign “climate first, not fossil first” as presented at the membership meeting. We want to augment necessary political and scientific analysis with human stories and experiences that will resonate at kitchen table discussions. Let’s strive to represent a broad demographic.

Cttee. decided that Virginia will stay on as chair of CITC.
