

The CPPIB Divestment Postcard Campaign is back!

Due to popular demand, the Canada Pension Plan Investment Board (CPPIB) Divestment Postcard Campaign is back! We have printed 3000 more postcards to keep the campaign going and to continue to pressure CPPIB to stop investing our national retirement funds in fossil fuels and to invest urgently in solutions to the climate crisis. We want CPPIB and its new Board Chair, Dean Connor, to know that we are continuing to watch them and that there is urgent need to act now!

CPPIB is the largest pension fund in Canada and one of the largest in the world. As of July 2022, CPPIB had nearly \$22 billion invested in fossil fuel producers. CPPIB also privately owns oil and gas companies, pipelines, and other fossil fuel infrastructure all over the world.

We have continued with the three hard-hitting postcards for you to send to key executives of the CPPIB. The cards have a strong message about the need for the CPPIB to divest from fossil fuels and there's space on the back for you to write your own message.

To order postcards for your community, please contact:

ksweisberg@gmail.com

or

Magdalene.winterhoff@bell.net

And December is **CPPIB Divestment Postcard Month**, so please take photos of you and a group of your friends mailing postcards and send the photos to scandivestment@gmail.com
